## Stainless Steel Working / Preparation Table

Stainless steel tables are quality assurance instruments when handling food. Stainless steel is a material that provides greater safety when in contact with food, as it is a material that does not transmit toxic substances, odors and taste. The stainless steel tables have a clean and modern appearance, the design is elegant.

## Stainless Steel Storage Rack 4/5/6 Shelf

Ideal product for storing products in kitchens, bakeries, butchers, refrigerators, restaurants and commerce in general. Stainless steel is known for being one of the most resistant and highly durable metals, which makes the material a great option for furniture, objects and utensils in general, for the widest sectors. Another factor that makes stainless steel shelves a great piece of furniture is related to the high resistance of the material, compared to other metal products, and also has an excellent cost-benefit ratio.

# S/s Storage Rack
